

Brown County Health & Human Services Public Health Division

Navigating DHS Data

1. Go to www.dhs.wisconsin.gov; click “Get the latest on COVID-19” link at the top of the page

2. Click “County-Level” on the right side of the page

3. Under the “Jump to specific COVID-19 chart on this page,” click “Cases and Deaths by County” table

Jump to specific COVID-19 chart on this page:

- [Cumulative total number of reported confirmed and probable cases by date of symptom onset or diagnosis](#)
- [Number of reported confirmed and probable cases by date of symptom onset or diagnosis](#)
- [Cumulative total number of reported confirmed and probable deaths by date of death](#)
- [Number of reported confirmed and probable deaths by date of death](#)
- [Cases and deaths by county table](#)
- [Learn how to download our data](#)

To find COVID-19 maps by county and census tract, see the [Wisconsin Summary](#) webpage.

Brown County Health & Human Services Public Health Division

4. Click Brown and the Brown County data will highlight on the table
 - a. This table is where you can find the following metrics*:
 - i. Number of confirmed cases
 - ii. Number of negatives
 - iii. Number of probables
 - iv. Number of deaths

Cases and deaths by county
Updated: 3/30/2021

Select a County

All Counties

County	Number of confirmed cases	Number of negatives*	Number of probable cases	Number of deaths †	Number of probable deaths ‡	Confirmed cases per 100,000 people	Deaths per 100,000 people**	Case fatality percentage ††
Wisconsin	576,632	2,715,398	58,682	6,612	680	9,974.5	114.4	1.1%
Adams	1,623	8,047	168	10	5	7,919.0	48.8	0.6%
Ashland	1,198	7,018	75	16	0	7,552.2	100.9	1.3%
Barron	5,517	19,334	155	76	0	12,024.8	165.6	1.4%
Bayfield	1,079	6,890	95	19	0	7,096.8	125.0	1.8%
Brown	30,664	130,995	3,091	232	38	11,778.9	89.1	0.8%
Buffalo	1,326	5,355	34	7	0	9,815.7	51.8	0.5%
Burnett	1,230	6,029	140	22	1	7,962.7	142.4	1.8%
Calumet	5,596	21,412	611	46	4	10,871.1	89.4	0.8%
Chippewa	7,177	29,252	188	93	2	11,175.6	144.8	1.3%
Clark	3,167	10,827	394	58	4	9,116.0	166.9	1.8%
Columbia	5,172	27,162	381	56	12	9,053.4	98.0	1.1%

* Total number of people with negative confirmatory diagnostic test results (does not include negative antibody or negative antigen results).
 † Total number of COVID-associated deaths among confirmed cases of COVID-19.
 ‡ Number of COVID-associated deaths among probable cases of COVID-19.
 ** Total number of deaths among confirmed cases per 100,000 people.
 †† Percent of total confirmed cases who died of COVID-19.

- b. If you are interested in downloading historical data, scroll down to the box that reads “How can I download DHS COVID-19 data?” and select “County Data”

How can I download DHS COVID-19 data?

All DHS COVID-19 data is available for download directly from the chart on the page. You can click on the chart and then click "Download" at the bottom of the chart (gray bar).

To download our data visit one of the following links:

- ▣ [State data](#)
- ▣ [County data](#)
- ▣ [Census tract data](#)
- ▣ [Municipality data](#)
- ▣ [School district data](#)
- ▣ [Zip code data](#)
- ▣ [Disease activity and hospital capacity data](#)
- ▣ [Testing sites](#)

You can find more instructions on how to download COVID-19 data or access archived spatial data by visiting our [FAQ page](#). The [data dictionary](#) (PDF) provides more information about the different elements available in the data above.

- i. Once the page loads, on the right side, there is a dropdown menu that reads “Download;” click on that and then select “Spreadsheet”
 1. A spreadsheet will then download with the State’s entire set of data; you can sort by County to find Brown County

The screenshot shows the DHS COVID-19 data interface. At the top, there are tabs for 'Overview', 'Data', and 'API Explorer'. Below the tabs, there is a map of Wisconsin with several counties highlighted. A red arrow points to the 'Download' dropdown menu, which is open to the 'Spreadsheet' option. Below the map, there is a table with columns for 'GEOID', 'GEO', 'NAME', 'DATE', 'POSITIVE', 'POS_NEW', 'POS_7DAYAVG', 'NEGATIVE', 'NEG_NEW', 'NEG_7DAYAVG', and 'DEATHS'. The table shows 1 to 10 of 27,504 records.

- Once done looking at this data, scroll to the top of the page and click “Number of reported confirmed and probable cases by date of symptom onset or diagnosis” under the “Jump to specific COVID-19 chart on this page.”

Jump to specific COVID-19 chart on this page:

- [Cumulative total number of reported confirmed and probable cases by date of symptom onset or diagnosis](#)
- [Number of reported confirmed and probable cases by date of symptom onset or diagnosis](#)
- [Cumulative total number of reported confirmed and probable deaths by date of death](#)
- [Number of reported confirmed and probable deaths by date of death](#)
- [Cases and deaths by county table](#)
- [Learn how to download our data](#)

To find COVID-19 maps by county and census tract, see the [Wisconsin Summary](#) webpage.

- This graph shows the epidemic curve and gives a sense of active cases over time. You can look at this data statewide or by County. Per the Wisconsin Department of Health Services, this is a much more accurate metric to look at instead of the raw active case counts. If interested in finding the raw active case counts, the process for finding them on the DHS website can be found later in this document.

- Once done looking at this case data, scroll to the top of the “County-Level” page and select “Activity Level by Region and County” on the right side of the page

COVID-19: Data Pages	
Activity Level by Region and County	>

Brown County Health & Human Services Public Health Division

8. Scroll down until you see two blue boxes that read “Disease Activity” and “Hospital Activity”

9. Click “Disease Activity;” you will see a dashboard titled “COVID-19 Disease Activity;” to see Brown County information, click on Brown County on the map; on the left side of the dashboard, where it reads “Activity Indicator” you can select Case Activity or Percent Positive to see the following metrics:

- a. CDC Burden Rate
- b. Positivity Rate

10. Once done looking at this data, scroll to the top of the page and select “Hospital Capacity”

Brown County Health & Human Services Public Health Division

- a. While this webpage won't give specific daily hospitalization numbers for Brown County, it will show you the trend line of COVID-19 patients hospitalized in the Northeast Region

11. Once done looking at this data, scroll to the top of the page and select “Cases” on the right side of the page

COVID-19: Data Pages
