CTH ZZ (Washington Street) Construction Project Handout

The Brown County Highway Department will be completing a resurfacing project on CTH ZZ (Washington Street) from CTH MW (High Street) to Clay Street. This work consists of repairing curb and gutter, removing the top 2 ½-inches of the existing pavement and placing a new pavement.

**Project Schedule:**

The curb and gutter repairs will take place over the first two weeks of June. The next phase of construction will consist of removing and replacing the pavement, which is scheduled to begin at the end of August, and is expected to be completed by the end of September. The schedule is weather-dependent and may change due to weather conditions.

**Traffic and Access:**

During construction, the roadway will be open to local traffic and access to all businesses and residences will be maintained.

While curb repairs are taking place in front of your driveway, you may have to park out on street parking. County staff will notify you prior to closing your driveway.

**Project Website:**

Project information including detour maps, project notifications, and schedule updates will be available on the project website. The project website can be accessed by going on the Brown County website (www.browncountywi.gov) and clicking on: Departments → Public Works → Highway → Construction Projects → CTH ZZ

**Contact Information:**

Please contact our project engineer, Cornelius Nilam at 920-662-2155 or at cornelius.nilam@browncountywi.gov if you have any questions.
