CHRIS HARDY, P.E.
HIGHWAY COMMISSIONER

CTH GV (GV-16 @ Fox River bridge)

The geotechnical field work for the South Bridge Connector over the Fox River has begun. You may notice barges with drilling equipment on the Fox River west of Rockland Road. The drilling is being completed to obtain soil samples for use in the design of the proposed bridge. Soil borings will be completed at each of the bridge pier locations. This work began on October 3rd and will continue until the middle of November. If you have any questions regarding this work or the project in general please contact Chris Hardy at 920-662-2170 or by email at chris.hardy@browncountywi.gov.

Below are a couple of pictures of the equipment currently on the river. These photos were taken on October 4th.
