CHRIS HARDY, P.E.  
HIGHWAY COMMISSIONER

PUBLIC NOTICE:

Residents in the Town of Holland and the vicinity of CTH D bridge over Plum Creek:

This notice is to inform property owners that in the coming weeks, representatives for Brown County and the Wisconsin Department of Transportation (WisDOT) will begin data collection and evaluation for the Plum Creek Bridge rehabilitation project on CTH D between CTH CE and Holland Road in the Town of Holland. The intent of this project is to extend the service life of the existing bridge.

We are currently in the preliminary phases of our design and the specific project impacts are yet to be determined. Public input is a vital and critical component in shaping this project, public engagement for this project is planned for the summer of 2026 and you will receive additional information at that time. Construction of this project is currently planned for 2028.

The survey crews may need to cross and/or conduct some of these survey activities on your property. State of Wisconsin Statue 84.01(10) authorizes the Department of Transportation or its representatives to enter private land to conduct field surveys. The information will provide data on topography, property lines, existing right of way pins and monuments, archaeological sites, etc., which may be located in the area. If flags are placed on your property, please protect them for a few weeks prior to removing or mowing them.

Thank you in advance for your assistance and cooperation in our design process. If you have any questions, please feel free to contact the Project Manager, Kevin Lohff with SRF at 608-298-5416 or email [klohff@srfconsulting.com](mailto:klohff@srfconsulting.com).
