### Cleaning And Disinfecting Your Facility

Everyday Steps, Steps When Someone is Sick, and Considerations for Employees

**How to clean and disinfect:**  
 - Clean and disinfect surfaces that are frequently touched.  
 - Use EPA-registered disinfectants that are effective against SARS-CoV-2.  
 - Follow the manufacturer's instructions for use.

**High-touch surfaces include:**  
 - Door handles, light switches, railings, handrails, desks, chairs, tables, and other furniture.  
 - Staircases, elevators, and other high-traffic areas.  
 - Shared equipment, such as tools, equipment, and machinery.  
 - Shared workspaces, such as desks, cubicles, and break rooms.  
 - Shared restrooms and other facilities.

**Considerations:**  
 - Avoid using bleach or other strong disinfectants on surfaces that may be damaged.  
 - Avoid using disinfectants on surfaces that are not intended for disinfection.  
 - Avoid using disinfectants on surfaces that are not intended for disinfection.

**Additional steps:**  
 - Wash hands frequently with soap and water for at least 20 seconds.  
 - Avoid touching your face, especially your eyes, nose, and mouth.  
 - Stay home if you are sick.
