About FoodWise

FoodWise advances healthy eating habits, active lifestyles and healthy community environments for families with limited incomes through nutrition education at the individual, community and systems levels.

- We expose people to new fruits and vegetables and why they are important.
- We teach parents how to plan and prepare healthy meals for children and infants. Food safety is part of our program.
- We empower families with limited financial resources to choose healthful diets and become more food secure by spending food dollars wisely.
- We support communities in making the healthy choice, the easy choice where people live, learn, work and play.

To learn more about developing a nutrition education partnership with your agency, contact the University of Wisconsin-Madison Division of Extension Brown County FoodWise at 920-391-4654.
