**Land and Water Conservation**

1. **Director's Report.**

County Conservationist Nick Peltier informed the committee of a 25,000-gallon manure spill which occurred in the Town of Glenmore on July 13th. Mr. Peltier indicated that the spill was due to mismanagement and going forward (per both the Wisconsin DNR and Brown County) manure markers are required for employment. A $3,000.00 fee for overtopping and $250.00 for a county code ordinance violation was assessed.

Mr. Peltier then spoke of an active Crop Incentive program, as well as the Village of Greenleaf adopting a resolution authorizing Brown County to implement the county's Chapter 26 Ag Waste Ordinance within their community. Further, he spoke of a Low Disturbance Manure Injection Field Day which was held a few weeks back. And noted that he is working on the

county's Land & Water 10-Year Plan and a public hearing will be forthcoming. He's also looking at streamlining wetland permitting working in conjunction with the WDNR. Lastly, he indicated that if any committee members were interested in serving on the Wisconsin Land & Water Conservation Association Board to let him know.

Before the conclusion of the meeting Supervisor Theno stated that he recently spent some time with Mr. Peltier reviewing the aforementioned 10-year plan and he knows his stuff and he's very proud of him.
