

Addendum #2
Project #2704
Replace HVAC at Hazardous Waste Facility
Port & Resource Recovery
October 16, 2024
Request for Bid
See original specification packet for addresses

THIS ADDENDUM IS ISSUED TO MODIFY, EXPLAIN OR CORRECT THE ORIGINAL DRAWINGS AND SPECIFICATIONS AND IS HEREBY MADE PART OF THE CONTRACT DOCUMENTS. THIS ADDENDUM MUST BE ACKNOWLEDGED ON THE ADDENDUM RECEIPT SCHEDULE, WHICH WAS INCLUDED IN THE ORIGINAL DOCUMENT PACKAGE.

Vendors are required to read entire addendum to determine requirements affecting their contract.

Addendum #2

This addendum is for the following:

- To answer questions received for project
- To provide information for the bid opening

Questions: (answers in red font)

1. The existing RTU provides ventilation as required by code to the office space. The new units/SOW do not provide ventilation as required by code, how is ventilation to be addressed?

The specifications in the RFB/RFQ was for a system recommended by one HVAC company. The RFB allows for a second system or product to be submitted. This allows the county to benefit from the expertise of each HVAC company when selecting an appropriate unit that complies with current HVAC system regulation. For example, one approach mentioned at the walkthrough was a much smaller roof top unit that would take advantage of the existing delivery and return duct work in the building.
